

FACT SHEET

WINMAU®
THE FORCE BEHIND DARTS®

THE BLADE 6 SERIES

BLADE 6™

- Sixth Generation Blade Technology
- Density Control
- 25% Thinner Bullseye and 25 Ring
- High Tensile Wires
- Hi Visibility Sisal
- Rota-Lock

BLADE 6™ DUAL CORE

- Sixth Generation Blade Technology
- Density Control
- 25% Thinner Bullseye and 25 Ring
- High Tensile Wires
- Dual Core
- Hi Visibility Sisal
- Rota-Lock

BLADE 6™ TRIPLE CORE CARBON

- Sixth Generation Blade Technology
- Density Control
- 25% Thinner Bullseye and 25 Ring
- High Tensile Wires
- Triple Core Carbon
- Hi Visibility Sisal
- Rota-Lock
- Laser Cut Number Ring
- Includes Spirit Level

BLADE 6™ CRAFTED TO PERFECTION

The latest in the Blade Series of dartboards offers stunning design, innovation and craftsmanship, featuring Winmau's latest, Sixth Generation, dartboard technology. The Blade 6 dartboard delivers outstanding playability, durability and performance. Blade's pioneering web design features the latest 'Density Control™' wire for optimum fibre density and improved dart retention in the double, treble and bullseye zones, for maximum scoring power.

The ultra-thin 60° angled wire deflects darts into the scoring area for absolute minimal bounce outs. The fully hardened bullseye and outer bull, both featuring 'Density Control™' wire, are now 25% thinner. Fitted with the easy adjust Rota-Lock mounting system, the Blade 6 fits any wall allowing you to start playing within minutes. Made from the finest East African sisal for the most demanding players and environments. Blade 6 is Professional Tournament approved and made to official World Darts Federation specifications.

BLADE 6™ IMPROVED DURABILITY AND DART RETENTION

Blade 6 Dual Core's finely tuned innovations are a statement of performance and quality made for the most aspiring dart player.

The patented Dual Core dartboard base offers a seamless, high visibility playing surface and optimised core density designed for maximum scoring. Reduced density at the outer core facilitates smooth dart penetration whilst the high-density inner core absorbs excess kinetic energy, optimising dart retention and durability.

BLADE 6™ THE WORLD'S MOST ADVANCED DARTBOARD

The Blade 6 Triple Core dartboard is the most technically advanced dartboard available and the culmination of 30 years engineering innovation. The revolutionary Triple Core sisal base complements Sixth Generation Blade technology, offering the ultimate combination for optimal fibre density and maximum scoring.

The Triple Core Carbon features an all-new patented system with a seamless playing surface and a third, high compression layer, with carbon fibre reinforced sisal. The ultimate in dartboard construction, providing optimal fibre density, unrivalled dart retention and maximum scoring.

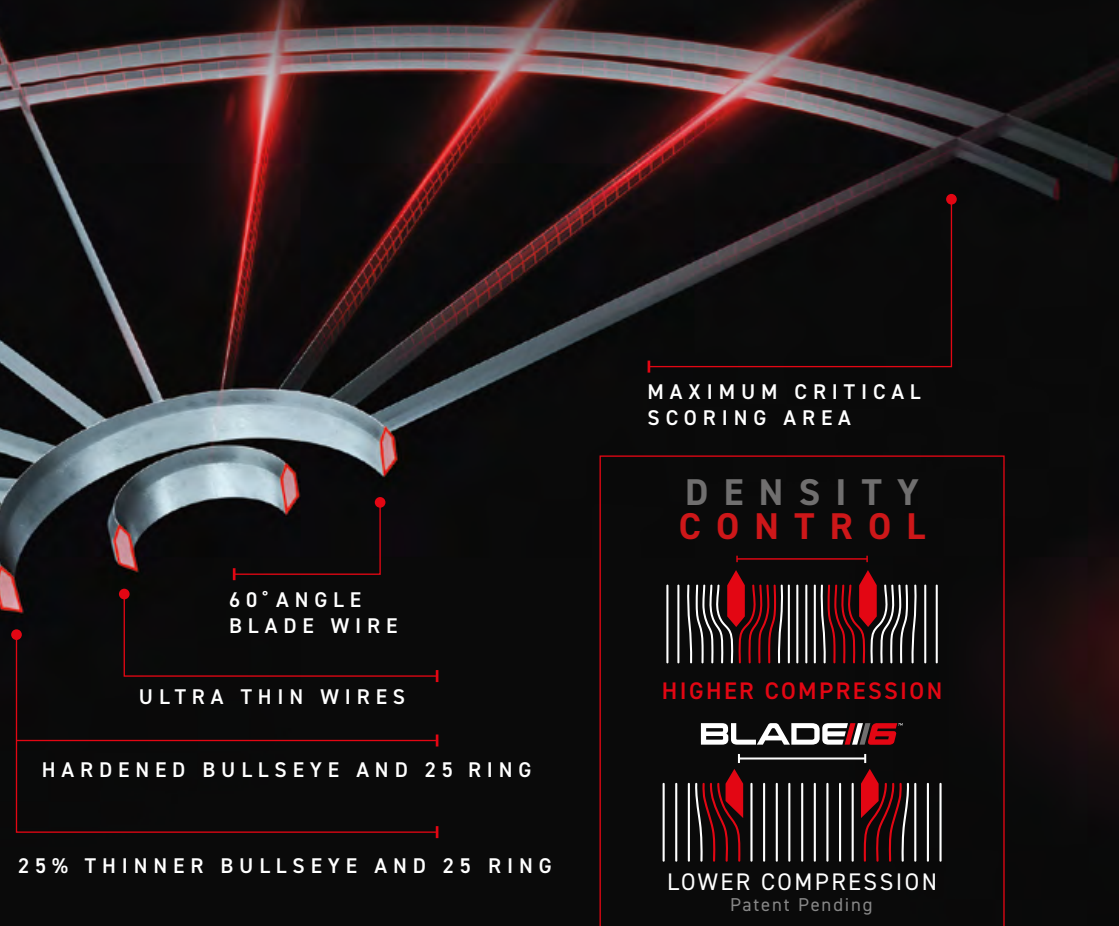

Finished with all-new graphics, and the world's first laser cut anti-glare number ring for the ultimate playing experience. One giant leap for dartboard design, the Blade 6 Triple Core is the Hallmark of Winmau's 75-year Dartboard Heritage.

BLADE 6™ SIXTH GENERATION BLADE TECHNOLOGY

BLADE 6™ TRIPLE CORE CARBON

- LOW-COMPRESSION**
Lower compression at the outer core reduces surface resistance and increases point penetration for fewer lost darts and higher scores.
- HIGH-COMPRESSION**
Higher compression at the inner core increases resistance below the surface, absorbing excess kinetic energy for improved durability.
- CARBON**
Carbon Fibre reinforced base layer penetrates the sisal line, creating the ultimate Triple Core technology and durability.

MAXIMUM CRITICAL SCORING AREA

DENSITY CONTROL

HIGHER COMPRESSION

BLADE 6™

LOWER COMPRESSION
Patent Pending

ROTA-LOCK LEVELLING SYSTEM
A unique and exclusive Triple-wheel lock and level system that allows for a quick and solid fix to the wall.

LASER CUT STEEL NUMBER RING
Pioneering Laser Cut Number Ring for a stylish look and improved focus. Patent Pending.
